SECTION 1 — EXECUTIVE SUMMARY & FINANCIAL ANALYSIS

■ **DECISIVE FACTOR:** Conditional approval pending verification of GST reconciliation.

Financial Ratios

GST & Banking

D/E Ratio	0.54x
Net Worth	Rs. 745,000,000
Avg Monthly Bal.	Rs. 11,850,000
Data Completeness	50%

GSTIN	27AABCL9876R1ZX
GST Turnover	Rs.1,685,000,000
ITC Claimed	Rs.110,000,000
Avg Monthly Bal.	Rs.11,850,000
EMI Bounces	0
GST Reconciliation	■■ RISK FLAG — 38.5%

SECTION 2 — FIVE Cs CREDIT ANALYSIS

Parameter	Score	Rating	Assessment
Character	6.0/10	Adequate	Good character with minor concerns. Monitor regularly.
Capacity	8.5/10	Excellent	Excellent repayment capacity. Strong and consistent cash flows.
Capital	10.0/10	Excellent	Strong capital base. Well-capitalized with low leverage.
Collateral	6.0/10	Adequate	Adequate collateral. Loan well-secured.
Conditions	7.0/10	Good	Neutral conditions. Standard sector risk.
OVERALL	7.65/10	Wtd. Avg.	Combined weighted Five Cs score.

SECTION 3 — AI RISK DRIVERS (SHAP)

Risk Factor	SHAP	Direction	Interpretation
Active Litigation	1.5997	▼ Dec.	Favourable
EMI Bounce Count	1.5751	▼ Dec.	Favourable
GST Filing Regularity	1.2346	▲ Inc.	Unfavourable
GSTR 2A vs 3B Variance	0.7344	▼ Dec.	Favourable

SECTION 4 — AI REASONING CHAIN

AI reasoning not available.

SECTION 5 — SWOT ANALYSIS

STRENGTHS	WEAKNESSES
- Excellent repayment capacity with a Capacity score of 8.5/10, indicating strong and consistent cash flows - Strong capital base with a Capital score of 10.0/10, having a low debt-to-equity ratio of 0.5x and a net worth of Rs.745,000,000 - Healthy average balance of Rs.11,850,000 and no EMI bounces, showcasing a clean repayment record	- GSTR-2A vs 3B mismatch detected with a 38.55% variance, indicating potential GST filing issues - Thin cash flow margin of 7.7%, which may impact the company's ability to meet its financial obligations - Partial collateral coverage of 75%, which may not fully secure the loan in case of default
OPPORTUNITIES	THREATS
- Growing revenue, as evidenced by a 15% revenue growth in Q3, which can lead to increased cash flows and improved repayment capacity - Neutral sector risk with a moderate score of 5/10, which may provide opportunities for growth and expansion - Positive news articles highlighting the company's growth, which can enhance its reputation and attract new customers	- GST notice for ITC mismatch, which can lead to financial penalties and reputational damage - Risk of sudden large cash withdrawals, which can impact the company's liquidity and repayment capacity - Negative news articles, such as the one mentioning the GST notice, which can harm the company's reputation and affect its business

Lakme's strong capital base, excellent repayment capacity, and growing revenue make it a viable borrower, but the company's GST filing issues, thin cash flow margin, and partial collateral coverage require close monitoring. With a low risk score of 0.154 and a conditional approval pending GST reconciliation, Lakme can mitigate its risks and capitalize on opportunities with proper management and oversight.

SECTION 6 — EXTERNAL RESEARCH & MACRO TRIANGULATION

External Risk	Medium
News Risk Score	3.5/10
Litigation	None found
MCA Charges	None

Synthesis: The external risk score is relatively low at 3.5/10, but the GST notice for ITC mismatch is a concern. The company's profit after tax (PAT) is high at 208800000.0, which may mitigate some of the external risks. However, further investigation is needed to understand the impact of the GST notice on the company's financials.

Red Flags

- GST notice for ITC mismatch

Positives

- No other significant negative signals

SECTION 7 — EARLY WARNING SIGNALS

#	Signal	Frequency
1	Monitor GST filing regularity monthly	Monthly
2	Track EMI payment pattern	Quarterly
3	Watch for sudden large cash withdrawals	Quarterly

SECTION 8 — CREDIT CONDITIONS & COVENANTS

Type	Condition
Pre-Disbursement	Submit audited financials + GST returns for past 3 years.
Pre-Disbursement	Execute all security documents; SARFAESI-compliant first charge.
Ongoing Covenant	Quarterly stock/debtor statements; maintain DSCR > 1.25x.
Ongoing Covenant	Prior written approval for additional LT borrowings > Rs. 50L.
Annual Review	Audited Balance Sheet + P&L; within 6 months of FY end.
Annual Review	Annual site inspection by relationship/credit manager.

SECTION 9 — RECOMMENDATION & PROPOSED SANCTION TERMS

Borrower	Lakme
Sanctioned Limit	Rs. 0.23 Cr (Rs. 23.07 Lakhs only)
Rate of Interest	9.73% p.a. (Floating — MCLR linked)
Primary Security	Hypothecation of current assets
Collateral	As per application / valuation report
Processing Fee	0.50% of sanctioned limit + GST
Annual Review	05-08-2027

APPROVED
